

Air Cargo

Bangor International Airport is capable of handling any commercial cargo carrier presently flying. We specialize in helping with the origination or receipt of cargo shipments. BGR operates a diverse array of loading and unloading equipment, including main deck loaders, container cargo loaders, transporters for palletized cargo, cargo scales (20,000 lb. capability) and forklifts. For low-cost, problem free and highly experienced freight and cargo handling, BGR offers:

- Strategic location - First stop in and last stop out of the U.S. on the Great Circle Route
- 24 hour Federal Inspection Services for U. S. Port of Entry
- All weather access CAT III, 11,440 ft. (3,486m) runway
- Low cost, all inclusive/all aircraft ground and cargo handling services
- No restrictions, surcharges, Canadian NAV/User fees, or other “hidden costs”
- Immediate access to the eastern seaboard highway network
- 12 million square feet of ramp space
- 20,000 sq. feet of heated cargo storage space
- FAA/EASA maintenance
- Free Trade Zone
- Full service banks and law firms with international expertise and experience
- Uncongested access - air and land
- No noise restrictions
